The information contained in this profile was provided by the candidate. Except for space limitations, the candidate's answers were not edited.

Why should voters vote for you?

No answer was provided by the candidate.

I Am Motived To Run For Office Because:

As a small business owner, I first ran for City Council because I was tired and frustrated with all the obstacles the city put in the way of businesses like mine and others. From the permitting and inspection office, to high taxes, I got fed up and decided to do something about it – run for office.

I Admire:

I admire God above everything else.

I Will Vote As A Trustee* Or As A Delegate*

**A trustee votes their conscious on public policy. A delegate votes what their constituency wants.*
My policy decisions are based on a case-by-case basis. I make sure to have conversations with all stakeholders that will be affected and collect all data and analyze each decision carefully. This allows me to make the most educated decision. My approach is a combination of both.

I Will Stay In Touch With My Constituency By:

I currently contact my constituents via weekly calls, emails, social media engagement, newsletters, community events, town halls, community meetings, and schedule one-on-one meetings with my constituents. I have an open-door policy and will meet with anyone, even if we disagree.

Top Three Issues

1. Tax Reform.
2. Procurement Process Reform.
3. Traffic Management and Congestion Control. (edited, see full answers online)

The 2012 Multipurpose Cultural Arts & Entertainment Center

I always believe we should respect the will of the voters that participate in our democratic process, and that occurred in 2012. I pushed for a feasibility study to obtain estimates for the proposed project while preserving the neighborhood's historic buildings and historical character. I sincerely believe we can creatively find a way to preserve our history while keeping our promise to the voters if we work on a compromise that all of us can be proud of.
